

LTZ LLC

TECHNICAL SUPPORT STAFFING & FIELD SYSTEMS SERVICES

Deployable Technical Personnel | Systems Support | Integration & Validation

Huntsville, Alabama | Primary NAICS 541519 | Veteran-Owned Small Business

LTZ LLC provides scalable technical-support staffing and hands-on field systems services to federal agencies, and contractors. We support mission environments with experienced personnel for system integration, and operational readiness.

CORE CAPABILITIES

- **Technical Support Staffing:** Recruiting and placement of field service, help desk, and IT personnel aligned with contract requirements.
- **Field & User Support:** On-site troubleshooting and technical assistance for trainers, Field Service Representatives, and end users.
- **Systems Configuration, Integration, and Testing:** Software installation, upgrades, configuration, integration support, and readiness verification and testing.
- **Windows, Linux, Network & IT Troubleshooting:** System builds, baseline configuration, and hardware, software, and connectivity issue resolution.
- **Personnel Deployment & Surge Support:** Technical personnel for CONUS and OCONUS fielding, exercises, and short-duration assignments.

DIFFERENTIATORS

- **Technical Hiring Insight:** Owner's defense field-support experience informs candidate evaluation and alignment with contract requirements.
- **Direct Owner Accountability:** One point of contact for staffing coordination, communication, and issue resolution.
- **Operational Perspective:** Firsthand experience supporting mission systems, trainers, and field teams in demanding environments.
- **Flexible Staffing Approach:** Small-team staffing and teaming tailored to ongoing, travel, and surge requirements.

KEY PERSONNEL EXPERIENCE

LTZ's owner brings hands-on Army and defense-industry experience supporting IBCS and computer-based mission systems.

- **Installation Leadership:** Led software installations across 20+ systems, including configuration validation and readiness checks
- **Operational Support:** Provided on-site technical support to CONUS and OCONUS sites resolving software issues for trainers and field teams.
- **System Troubleshooting:** Imaged and updated Windows, Linux, and CISCO baselines and resolved application issues through log and software-package analysis.
- **Integration Support:** Key experience integrating equipment from multiple manufacturers to accomplish program goals.

Experience reflects the owner's military and employment background, not contracts performed by LTZ LLC.
